Window Based CCTV Weighbridge Software.

With our weighbridge software, there is no chance of incorrect weight transfer, hence, making it fully transparent system without any intermediary disturbances.

We provide a solution to the enterprises/industries who are looking for easy, transparent and automating their weighbridge platforms. We provide lifetime solution through our easy accessible single platform weighbridge software with plenty of useful features maintains database for future use and segregates automatically in easy to understand excel sheets, pdf's, etc.

- Single Screen Software
- Pending transactions are visible on main screen
- Report Generation (Item wise, Party wise, Ticket No. wise, Date wise) with Date Filter
- Supports both Dot Matrix and Laser Printers
- Support for Serial USB Weight Indicator and WiFi enabled Weight Indicator
- Supported on Windows (XP, Vista, 7, 8, 8.1, 10)
- Email for every Slip & Report
- Infinite memory storage
- Self Learning Names for Vehicle Material and Party
- Can be customized for Third Party Customers
- Whatsapp Messaging
